Hey Judy,

We wish to express our appreciation to your guys, Jason, Chris and Brian, for putting all my fabric upstairs in the storage area. There were a few other things delivered to the rest of the house but most memorable is probably the fabric. The guys were so pleasant while doing their work; so careful not to bang into the walls or door frames. Having Premium Moving do the transporting and delivery was a pleasant part of our move. Thank you and your guys.

We also wish to thank Ron and his crew for coming to Rhode Island to pick up our "stuff" and bring it down here to North Carolina. I haven't laughed so hard since their visit. That too was a very memorable occasion.

The proof of your expertise in moving is that we had nothing broken as we unpacked. Thank you so much.

Always,
