Team Members;

We recently moved from St James Plantation to Ponte Vedra Beach in the northeast corner of Florida. Both of us are originally from this area so this was a little bit like coming home. At the recommendation of neighbors in St. James, we selected Premium Moving as our agent of choice.

We want to extend a special notice and kudos to the two men that packed, traveled with, unloaded and placed our belongings. They were punctual, efficient, knowledgeable, cautious and careful with our furniture, did an outstanding job wrapping the items and were very attentive to our requests for placement of everything.

Eric and Ray are not just good employees they are a credit to and an asset to Premium Moving. You can always count on these two to, not just represent your company, but add benefit to it.

If given a chance, we would recommend Premium as a preferred moving company . And, as stated above, a large part of that recommendation would be Eric and Ray.
